PRESCRIPTION DETAILS:

1. Date: April 13, 2025, Doctor: Dr. Pulmo Doctor

Patient Information: Name: Mr. Philip John Age: 42 Gender: Male Doctor Information: Name: Dr. Pulmo Doctor Hospital/Clinic: ZZZ Hospitals, Any City License Number: 99999 (Tami Nadu Medical Council REGD No) Qualifications: MBBS, M.D (Chest), Consultant Pulmonologist Medications: SALBAIR TRANSHALER INHALER: 1 puff - 0 - 0 - 1 (Levosalbutamol) - STAT (Immediately) MOXCLAV 625 TABLET: 1 - 1 - 0 - 1 (Amoxicillin 500mg + Clavulanic Acid 125mg) - 5 days, 15 tablets total MAXITHRAL 500 TABLET: 1 - 0 - 0 - 0 (Azithromycin 500mg) - 3 days, 3 tablets total MONTEKLCTABLET: 0 - 0 - 0 - 1 (Montelukast 10mg + Levocetirizine 5mg) - 5 days, 5 tablets total SOMPRAZ 20 TABLET: 1 - 0 - 0 - 1 (Esomeprazole 20mg) - 5 days, 10 tablets total Special Instructions: Diagnosis: Acute febrile illness - URTI (Upper Respiratory Tract Infection) Next Review Date: Monday, 23 April 2018, 05:30 PM Do not refill more than once. For Appointment: +91 98946 22998 Note: The prescription format uses a numbering system for dosage frequency (likely representing Morning - Afternoon - Evening - Night). For example, 1-1-0-1 would mean once in the morning, once in the afternoon, zero in the evening, and once at night. STAT means immediately. It's important to clarify any uncertainties with the prescribing physician or pharmacist.
